South Auckland girl Cassandra Ane Suemai hopes to one day manage her own hotel chain stretching across New Zealand and the Pacific Islands.

She chose the one-year MBM at Waikato to gain an all-round understanding of business operations and chase her career dreams.

"The MBM appealed to me because it's an intense learning experience aimed at fast-tracking your career into management. The course gives you a strong understanding of the critical aspects required to start a business; it's a real eye-opener as to what concepts can be used to move a company forward.

I like the fact that we got the chance to do a business research project and a one-month workplace internship. Networking with various business leaders has been a huge added bonus."
